

4/1/25 "Bench to Cribside" Attending Research Symposium

"Recognizing the Impact of Adverse and Benevolent Childhood Experiences among Youth Involved in the Juvenile Legal System"

Presented by: Johanna Folk, PhD - Assistant Professor, Psychiatry UCSF Weill Institute for Neurosciences UCSF School of Medicine and David Hoskins PsyD, MAS - Assistant Professor, Psychiatry, UCSF Benioff Children's Hospital Oakland

AND

"Faculty Perceptions of Masking Standardized Test Scores: A Qualitative Study to Uncover Insights into Holistic Review"

Presented by: April Zaat, MD, MAEd - Clinical Professor and Associate Director, Pediatric Hospital Medicine Associate Program Director, Pediatric Residency Director, Undergraduate Medical Education, UCSF Benioff Children's Hospital Oakland

Planners expect learners to:

1. Identify how both adverse and benevolent childhood experiences inform behavioral health needs. (Folk and Hoskins)
2. Consider typologies of adverse and benevolent childhood experiences when referring youth to appropriate specialty mental health services. (Folk and Hoskins)
3. Recognize the association between adverse & benevolent childhood experiences and behavioral health needs. (Folk and Hoskins)
4. Analyze the history of holistic review and apply it to the current context of holistic review in intern selection. (Zaat)
5. Identify the role of author positionality in qualitative research, specifically in reflexive thematic analysis. (Zaat)
6. Compare the role of institutional holistic review guidelines and the cyclic individual practice of bias mitigation in intern selection. (Zaat)

4/8/25 "GI Manifestations of Cystic Fibrosis"

Presented by: Jennifer Duong, MD

Pediatric Gastroenterologist
UCSF Benioff Children's Hospital Oakland

Planners expect learners to:

1. Recognize the benefits and limitations of tools used for CF neonatal screening and diagnosis.
2. Identify and treat the most common gastrointestinal, hepatobiliary, and pancreatic complications of CF.
3. Recognize that CF care in childhood may change in the setting of highly effective CFTR [cystic fibrosis transmembrane conductance regulator] modulator therapy.
4. Consider how racial disparities exist for patients and that more diagnostic tools and therapies are needed for uncommon CFTR mutations.

Grand Rounds is by Zoom only. 8-9 am. Contact cristina.fernandez@ucsf.edu for log-in information

UCSF Benioff Children's Hospital Oakland is accredited by the California Medical Association to provide continuing medical education for physicians.

UCSF Benioff Children's Hospital Oakland designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For CME credit, evaluations must be completed and sent to Cristina.Fernandez@ucsf.edu by 12pm the Friday after Grand Rounds.

4/15/25 "Strange Bedfellows-Discussing What's New in STI Diagnosis and Treatment Options"

Presented by: Alexander M. Newman, MD, MS

Pediatric Infectious Disease Physician
UCSF Benioff Children's Hospitals

Planners expect learners to:

1. Discuss who to test and why for STIs in certain populations.
2. Order and interpret the correct testing for common STIs.
3. Identify the correct treatment regimens for common STIs and their usual presentations.

4/22/25 "Updates in Family Planning for Adolescents and Medical Uses of Contraceptives"

Presented by: Lela Bachrach, MD, MS

Adolescent Health Pediatrician
UCSF Benioff Children's Hospital Oakland

Planners expect learners to:

1. Discuss a reproductive justice framework and youth-centered approaches to meet individual family planning needs.
2. Describe the advantages and disadvantages of contraceptive methods, including medical uses and non-contraceptive benefits of various options.
3. Access and apply the US Medical Eligibility Criteria for Contraceptive Use guideline and app.

4/29/25 "Avoiding the Blame Game: UTI Management in Individuals with Neurogenic Bladder"

Presented by: Hillary L. Copp, MD, MS

Chief, Pediatric Urology
UCSF Benioff Children's Hospitals

Planners expect learners to:

1. Describe the etiology of UTIs among individuals with neurogenic bladder.
2. Demonstrate how to evaluate for UTI among individuals with neurogenic bladder.
3. Examine how to prevent and treat UTI among individuals with neurogenic bladder.
