

4/5/22 "Baffling Lumps & Bumps in Children"

Presented by: Renee Howard, MD

UCSF Section Chief, Dermatology
Director of Pediatric Dermatology
UCSF BCH Oakland

Planners expect learners to:

1. Differentiate harmless pits and protuberances from those at risk for deep extension and know when to order imaging.
2. Diagnose unusual lumps and bumps that are benign and self-limited.
3. Identify skin nodules in children requiring an immediate dermatology evaluation.

4/12/22 "The Prevention of Childhood Lead Poisoning: Why Physicians Should Counsel on Lead and Screen for Lead Exposure"

Presented by: Jean M. Woo, MD

Public Health Medical Officer,
Childhood Lead Poisoning Branch,
California Department of Public Health

Planners expect learners to:

1. Describe and implement the updated recommendations from the Centers for Disease Control and Prevention (CDC) regarding the new Blood Lead Reference Value (BLRV).
2. Implement California's Childhood Lead Screening mandates and include anticipatory guidance in routine childhood visits.
3. Appropriately screen, follow-up, and manage children with elevated blood lead levels.
4. Recognize potential risk factors and lead exposure sources and provide targeted individualized screening when appropriate.
5. Reduce bias when assessing lead exposure risk, by increasing knowledge of cultural and other risk factors and behaviors that can affect all demographic and socioeconomic groups, in addition to risk factors associated with lower socioeconomic status (SES).

4/19/22 "Climate Solutions for Child Health: What's Good for the Planet is Good for our Patients"

Presented by: Aparna Bole, MD, FAAP

Associate Professor, Department of Pediatrics;
Case Western Reserve University School of Medicine
Cleveland, OH

Planners expect learners to:

1. Explain how climate solutions benefit child health and improve health equity.
2. Describe how the health sector can play an important role in climate mitigation and resilience.
3. Identify at least two examples of climate action for pediatricians.

4/26/22 "Bright Lights: Phototherapy and Lasers in Pediatric Dermatology"

Presented by: Nicole Kittler, MD

Pediatric Dermatologist
UCSF Benioff Children's Hospital Oakland

Planners expect learners to:

1. List the dermatologic conditions for which phototherapy is an indicated treatment.
2. Describe pitfalls and potential obstacles to phototherapy treatment for pediatric patients, taking into account how age, socioeconomic levels and geography impact access to treatment.
3. Identify patients who may benefit from laser treatments.

Grand Rounds is by Zoom only. 8-9 am. Contact cristina.fernandez@ucsf.edu for log-in information

UCSF Benioff Children's Hospital Oakland is accredited by the California Medical Association to provide continuing medical education for physicians.

UCSF Benioff Children's Hospital Oakland designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For CME credit, evaluations must be completed and sent to Cristina.Fernandez@ucsf.edu by 6pm the day after Grand Rounds.
