

3/5/24 "Music Therapy in Pediatrics: Supporting Advocacy and Agency"

Presented by: UCSF Benioff Children's Hospital Oakland Music Therapists
Maya Charlton, MA, MT-BC and Lauren Ragan, MA, MT-BC

Planners expect learners to:

1. Identify clinical benefits of medical music therapy from an evidence-based practice.
2. Describe key principles of trauma informed music therapy framework.
3. Recognize how music therapists improve patient outcomes by implementing culturally responsive and strengths-based approaches which directly address implicit bias in health care.
4. Assess how music therapy assists nursing and other allied professionals in the care of patients.

3/12/24 "The Latest and Greatest in the Management of Pediatric Obesity- A Look at Incretin-based Therapies and Bariatric Surgery"

Presented by: Shylaja Srinivasan, MD, MAS

Pediatric Endocrinologist
Pediatric Type 2 Diabetes Specialist
UCSF Benioff Children's Hospital San Francisco

Planners expect learners to:

1. Describe the epidemiology and risk factors for obesity in children.
2. Discuss the use of incretin-based therapies for the management of pediatric obesity.
3. Explain the indications to consider bariatric surgery for the management of pediatric obesity.

3/19/24 "Down syndrome, Abnormal Movements, and Neurologic Conditions to Consider: A Case-based Approach"

Presented by: Nicole Baumer, MD, MEd

Director, Down Syndrome Program
Boston Children's Hospital

Planners expect learners to:

1. Identify the clinical presentation and neurobiologic underpinning of various neurologic symptoms and conditions that may occur more commonly in Down syndrome.
2. Discuss differential diagnoses to consider when particular movements are present.
3. Identify appropriate management strategies for treatment of abnormal movements and associated neurologic conditions in Down syndrome.

3/26/24 "Tip of the Iceberg: Cutaneous Manifestations of Systemic Disease"

Presented by: Regina-Celeste Ahmad, MD, PhD

Associate Clinical Professor, Pediatric Dermatology
UCSF Benioff Children's Hospital Oakland

Planners expect learners to:

1. Differentiate between benign and atypical presentations of common pediatric skin disorders necessitating evaluation for underlying systemic disease.
2. Describe the common cutaneous presentations of pediatric autoimmune disease across skin types and factors leading to diagnostic delay.
3. List examples of pediatric genetic syndromes with diagnostic dermatologic features.

Grand Rounds is by Zoom only. 8-9 am. Contact cristina.fernandez@ucsf.edu for log-in information

UCSF Benioff Children's Hospital Oakland is accredited by the California Medical Association to provide continuing medical education for physicians.

UCSF Benioff Children's Hospital Oakland designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For CME credit, evaluations must be completed and sent to Cristina.Fernandez@ucsf.edu by 12pm the Friday after Grand Rounds.
