

9/5/23 "The Pharmacology of Pediatric Chronic Pain: Common Medications and New Horizons"

Presented by: Amber Borucki, MD

Instructor, Pediatric Anesthesiology and Pain Medicine
Lucile Packard Children's Hospital

Planners expect learners to:

1. Describe pharmacological treatments that are commonly used in pediatric pain.
2. Recognize indications for specific pharmacological treatments that are used in pediatric pain.
3. Identify newer pharmacological treatments on the market for pediatric chronic pain treatment.

9/12/23 "Updated Guidelines for Prevention and Management of Obesity in Children and Adolescents"

Presented by: June Tester, MD, MPH

Adjunct Professor of Pediatrics
UCSF Benioff Children's Hospital Oakland

Planners expect learners to:

1. Differentiate how the updated guidelines differ from previous guidelines in key areas (ages for evaluation and treatment, medication options, and bariatric surgery referral).
2. Identify and address social drivers of overweight and obesity in children such as food insecurity and adverse childhood experiences (ACEs).
3. Diagnose and manage patients with obesity using tools such as language (e.g. people-first language) and appropriate accommodation (e.g. equipment and furniture scaled for larger bodies) in a way that reduces weight bias and weight stigma.

9/19/23 "Health in Pregnancy and Impacts on Childhood Development"

Presented by: Kimberly Larson, MD

Neonatologist
UCSF Benioff Children's Hospital Oakland

Planners expect learners to:

1. Review important pre-conception guidance for optimal health in pregnancy and childbirth.
2. Discuss the more common maternal conditions in pregnancy and their influence on fetal, neonatal and long-term childhood health.
3. Explore the more common fetal conditions in pregnancy which may be encountered by the primary care pediatrician, such as renal, CNS and respiratory complications, the follow up and long-term outcomes.

9/26/23 "What the General Pediatrician Should Know about Bronchopulmonary Dysplasia"

Presented by: Sandra Wai, MD

Neonatologist
UCSF Benioff Children's Hospital Oakland

Planners expect learners to:

1. Define bronchopulmonary dysplasia.
2. Identify short- and long-term complications associated with bronchopulmonary dysplasia.
3. Describe the impact racial disparities have on the incidence and outcomes of severe bronchopulmonary dysplasia.

Grand Rounds is by Zoom only. 8-9 am. Contact cristina.fernandez@ucsf.edu for log-in information

UCSF Benioff Children's Hospital Oakland is accredited by the California Medical Association to provide continuing medical education for physicians.

UCSF Benioff Children's Hospital Oakland designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For CME credit, evaluations must be completed and sent to Cristina.Fernandez@ucsf.edu by 12pm the Friday after Grand Rounds.
